

Capacity Building Committee

Work stream in support of IntoSAINT

IntoSAINT is a self-assessment tool that SAIs can use for analyzing their integrity risks and assessing the maturity of their integrity management systems. The tool is targeted at preventing corruption and generates a list of management recommendations for supporting the integrity of the organization in question. It is a management tool enabling the user to design a tailor-made integrity policy and at the same time to raise integrity-awareness among its staff.

IntoSAINT was integrated as a CBC work stream in 2013. The work stream group consists of representatives from AFROSAI-E, ARABOSAI, ASEANSAI, CREFIAF, OLACEFS, PASAI, European Court of Auditors and the IDI. SAI Netherlands has led the development and roll-out of IntoSAINT in INTOSAI until 2016. SAI Mexico has agreed to take over the leadership and continue the work from 2017 onwards.

Areas of responsibility

- Promote IntoSAINT as a capacity development tool, and encourage the use and further development in support of the continuous development of integrity and accountability within the public sector in general and in SAIs in particular
- Proposal for rolling out IntoSAINT instrument, moderator facilities and evaluation and follow-up system within all regions
- Identifying best existing forum at inter-national level for sharing experiences and updating the tool at regular intervals. Funding issue will also be addressed.

Products and support available

You can find out more about IntoSAINT via the CBC website (www.intosaicbc.org) or directly via SAI Netherlands: <http://www.courttofaudit.nl/english/Publications/Topics/IntoSAINT>

Future activities

NEW WORK STREAM OBJECTIVES ARE:

- Broad recognition of IntoSAINT as a capacity building and assessment tool for SAIs
- Worldwide application of IntoSAINT in order to strengthen integrity in SAIs and the public sector;
- Mainstream IntoSAINT in SAI and regional organizations' strategies and operations;
- Demonstrate added value by developing a monitoring system and actively promoting experiences and best practices via existing INTOSAI communications channels;
- Ensure synergies between IntoSAINT roll-out and regional activities to support ISSAI 12 and to implement SAI-PMF, ISSAI 30 and the IDI Fraud and Corruption programme.
- Continue lobbying for SAIs to dedicate own budget as well as for donor support to fund the roll-out of IntoSAINT.
